

anniversary collection

Tiziana Terenzi
Since 1968

Extrait de Parfum

The Anniversary Collection stems from the oldest perfume tradition. An innovative stylistic challenge that wishes to give perfume its original scent. The selection of high quality and rare raw materials only allow a limited annual production. Each precious bottle is catalogued with the year of production. The recipe itself remains the same although, each year, it gets the sublime touch of nature. For this reason, each bottle will be a unique and collectible piece.

This unforgettable journey starts in a sail boat in the Gulf of Fethiye, known in history as the "land of light and fire", stopping at the amazing and surreal Olympus, where, from the heart of the mountain, huge tongues of fire are released and are visible even from the sea in the warm summer nights. Like Phoenician sailors, transported from Maltemi, we headed on toward the ruins of the Lycian civilization, between untouched coves and pine-covered hills reach down to the sea, surrounded by slopes covered in thyme, sage, bay trees and rare, almost extinct, Günlük, "Incense trees" that perfume the air in a breathtaking explosion of colours and essences. A scent of wild and lush nature, both sweet and warm at the same time, emphasised by the intense smell of melted caramel that comes from small camps at the foot of the mountain, where we rest before the climb. This fragrance reverberates in the air and is reflected in the blue of the sea, passing by the ruins of the ancient city to reach the lighthouse at Cape Gelidonya, which stands alone in a place full of history and legends. The tensions and attractions of this combination of elements, fire and water, have been captured and enclosed in a perfume extract made from rare and precious natural raw materials. This untouched territory, rugged and wild, gathers within itself all the splendour and strength of the Mediterranean that from its belly, like an ancient Greek deity, breathes supernatural and magical fire giving rise to Chimera.

TOP NOTE: Black pepper, Lemon, Saffron, Red Earth, White Leather, Hydrogen, Tolu Balm, Thyme, Bay Leaf

Tiziana Terenzi®

The most romantic stop on this wonderful journey is Venice, where the fire of seduction still burns in the fireplaces of the beautiful eighteenth-century buildings, mysterious villas of undiminished charm, frequented by the famous Casanova whose presence can still be felt, if you pay proper attention to small signs. The memory of a winter's evening during the famous Carnival in Venice, inspired by a mysterious and ethereal Muse, the City of Doges. The night's air seeped in perfume, heated by the scents of bonfires that light up the streets and Piazza San Marco. A dance of sensory emotions, accompanied by a beautiful and mysterious Lady, her face hidden by a precious golden mask, like the bottle that contains this valuable and secret essence. Letting yourself be overcome is your only defence in the face of such persuasiveness. This perfume tells of places of beauty and seduction, through its complex and fluctuating structure, which is entrusted to the rare and precious ambergris. A subtle journey through a city that inspires **love** and **eroticism**, through the paths described by Casanova in his memoirs: memories of amorous adventures with the stunning backdrop of a city so ethereal that it lives floating on water.

TOP NOTE: Bergamot, Orchid, Jasmine, Leaf of Eden, Powder

MIDDLE NOTE: Ambergris, Pink pepper, Vanilla, Cardamom, Guaiac Wood, Myrrh, Leather

BASE NOTE: Amber, White Musks, Ambroxan, Cedarwood, Oakmos, Guaiac Wood, Tonka Bean, Cedarwood, Vetiver
